KEY QUESTIONS FOR WORKGROUP TO CONSIDER IN PREPARATION FOR THE SESSION:

Please think about the eligibility criteria for entry into the Iowa system of services for people with intellectual disabilities at the facility, waiver and county level. Some questions to consider include:

- What do we know about people currently receiving services in the public ID system?
- What do we know about people with developmental disabilities who do not fit the current eligibility definition?
- What are the cost considerations of expanding eligibility to include people served in other systems (e.g., mental health, corrections, etc.), to individuals who are currently underserved, or people who are not currently receiving services but who share some characteristics with the current served population?
- What would it take to standardize eligibility criteria at the county level?
- Do we need more information about people served in other systems in IA?
